# Powell Seed Store 

445 SOUTH THIRD STREET LOUISVILLE, KENTUCKY
"Next Door to Louisville Water Company"

## Our 1938 Catalog

We present this 1938 catalog not only as a price list of the merchandise we offer, but also as a guide to better gardening.

You will find listed seeds and plants of many new varieties which we deem worthy of trial in this vicinity. Most gardeners are fascinated by trying out something new. In these pages you will find many flowers which are well adapted to this area but are so little known that they have found their way into the gardens of only a few pioneers. Elsewhere in this catalog you will find a list of varieties which are well worth a trial.

## Notice

Powell Seed Store gives no warranty, express or implied, as to description, purity, quality, productiveness, or any other matter of any seeds, bulbs or plants it sells, and will not be responsible for the crop.
Prices in this catalog are all subject to change without notice.
We pay postage on vegetable and flower seeds in packets, quarter pounds, half pounds, and pounds. Heavy parcels of seed, fertilizers, or other garden supplies will be delivered to any part of the city where purchase amounts to one dollar or more.

Prices in this catalog, except as noted above, are f. o. b. Louisville.

## Lawn Grass Seed

## LOUISVILLE LAWN MIXTURE

This blend of fine-leaved grasses with White Dutch Clover is recommended for use in reseeding established lawns, patching thin spots, and for seeding newly graded yards where a permanent stand of Kentucky Blue Grass is desired. Ready for cutting after 30 days of good weather. This seed should be broadcast evenly to avoid a patchy appearance.

For New Lawns. The soil should be well prepared, and Bone Meal or Sheep Manure should be well incorporated with the soil. Seed should be sown at the rate of 1 pound for every 300 square feet, selecting a time when there is no wind. After sowing, roll or rake lightly.

For Old Lawns. Bare spots should be vigorously roughed with a steel rake. An application of SHEEP MANURE will act as a stimulant to patches lacking plant food. Scatter the seed as evenly as possible, then rake or roll lightly.

Several sowings are better than one. Do not risk all your seed at one time. The seed may be washed away by a downpour of rain immediately after planting. A good plan is to sow a part of your seed walking East and West-the next time walk North and South, in this way assuring an even distribution. Very good success can be had from scattering seed on a soft snow. In spring it is well to rake out all dead grass before sowing.

Use Grass Seed Generously. Where lawns are kept in neat condition, the plants do not produce seed as Nature intended. This deficiency must be supplied by an occasional seeding.

Prices: 1 lb., 3 इॅc ; 3 lbs., $\$ 1.00 ; 5 \mathrm{lbs}$., $\$ 1.50 ; 20 \mathrm{lbs}$., $\$ 5.00$.

## SHADE GRASS MIXTURE

For use in courts, under trees and shady places, we have produced a mixture with shade-loving grasses which will give excellent results where other grasses fail. When the grass has become established, water generously once a week, and give an application of Sheep Manure and Bone-Meal at least twice a year. Prices: $1 \mathrm{lb} ., 40 \mathrm{c} ; 3 \mathrm{lbs}$., $\$ 1.10 ; 5 \mathrm{lbs} ., \$ 1.75$.

## TERRACE MIXTURE

A strong network of roots is necessary to prevent washing on steep terraces and banks. In this mixture we have blended the proper seeds to make a fine sod of velvety texture, grasses which will start quickly and give permanent effect.

Prices: $1 \mathrm{lb} ., 50 \mathrm{c} ; 5 \mathrm{lbs}$., $\$ 2.25$.

## KENTUCKY BLUE GRASS

This seed should be used only on well-established lawns, as it does not "stool out" or produce a turf until the second year. On netvly graded soil, Blue Grass should have a nurse crop of Red Top and White Dutch Clover.

Prices: 1 lb., $30 \mathrm{c} ; 5 \mathrm{lbs}$., $\$ 1.25$; 10 lbs ., $\$ 2.10 ; 20 \mathrm{lbs}$., $\$ 4.20$.

## MISCELLANEOUS GRASSES

Blue Ageratum

## Annual Flower Seeds

Cosmos

The seeds of some annuals may be sown as early as February in the open garden; others must wait until the earth has become warm and friable. All of them will bloom the first year and complete their cycle. Noteworthy among those whose seed may be scattered in early spring are Annual Poppies, Cornflower, Petunia, Larkspur, Nicotiana, Nigella, Snapdragon and Cosmos.

As soon as the ground can be prepared, plant Sweet Peas.
Some of the tender, late-blooming annuals can be brought into flower earlier by sowing the seed under glass or in boxes indoors. In this group are found: Asters, Scarlet Sage and Verbena.

Try a few new things this year.

## AGERATUM

Imperial Dwarf Blue. Packet, 10 cents; $1 / 8$ oz., 25 cents; $1 / 40 z ., 40$ cents.
SWEET ALYSSUM (Maritimum). Its compact habit makes it desirable for borders and hanging baskets. Packet, 10 cents; 1/2 Oz. . 20 cents; oz., 35 cents.

Zinnia

## ZINNIAS

Every garden should have a generous bed of these brilliant flowers for cutting. While they do well even if neglected, they are very grateful for occasional cultivation, water in dry weather, or a top dressing of bone-meal during their growing days. Seed may be sown when danger of frost is passed, and you can have the finest flowers in September by sowing seeds in June. The Lilliput (button) Zinnia will come into bloom in five weeks after sowing.

Elf. Various shades of carmine.
Tiny Tim. Rich scarlet.
Pixie. Showy bright yellow
Snowdrop. Clear white.
Any of the above. Packet, 15 cents.

Bleeding Heart

## Perennial and Biennial Flowers

The hardy flowers may be grown from seed and most of them will bloom the first season if seed is planted early in the spring. A box in a sunny window will do for many of the seedlings; those who are blessed with hot-beds or coldframes can do work on a larger scale. For fall sowing, August is the best time for planting Perennial Seed of most varieties.

Orders for Perennial Plants should be placed several days in advance of the time when they are needed.

ALYSSUM SAXATILIE. Gold Dust. Packet, 10 cents; plants, 3 for 50 cents.
ANCHUSA (Italica). Masses of deep blue flowers in June and July. Excellent as background screen. Height, 4 feet. Packet, 15 cents.

AQUILEGIA. Columbine. This hardy flower should be included in every garden.
Long-spurred Hybrids. Many shades. Packet, 15 cents; plants, 3 for 50 cents.
Mrs. Scott Elliott Hybrids. An unusual strain with large flowers in remarkably beautiful colors. Packet, 25 cents. Plants, 3 for 55 cents.

ARABIS. Dwarf white perennial, blooming early in sprirg. Packet, 10 cents; plants, 3 for 50 cents.

AUBRIETIA EYRI. A splendid plant for the rockery or for massing with spring-flowering bulbs. Will thrive in any good, well-drained soil. The small, rosy-lilac flowers are freely borne over a mass of foliage. Packet, 15 cents; plants, 30 cents each.
AUGUST LILY (Funkia). Subcordata grandiflora. Large white fragrant flowers, heart-shaped leaves. Fine for shady places. Three for $\$ 1.00$.
BELLIS perennis. Double English Daisy. Packet, 10 cents.
BLEEDING HEART Spectabilis. An old-fashioned favorite. At home in sun or shade. Plants, 50 cents each; divisions, 35 cents.

CARNATION CHABAUD MIXED. Packet, 15 cents.
CERASTIUM Tomentosum. Snow-white flowers. Dwarf plants, 20 cents ea.
CHINESE LANTERN PLANT (Physalis). Packet, 10 cents.
DORONICUM (Leopardbane). Bright yellow daisy-like flowers borne early in the spring on two-foot stems. Will thrive in heavy soil in full sun or partial shade. The plants dormant during mid-summer, new growth appearing in the fall, at which time the plants may be divided. This plant deserves to be better known. Plants, 50 cents each.

## Delphinium

## HARDY CHRYSANTHEMUMS

For a profusion of gay colors in the autumn, hardy chrysanthemums take first place among the perennial plants. For weeks after the early frosts have killed most other things, the chrysanthemums continue their supply of splendid cut flowers and masses of color in the border. Below we list new varieties as well as some of the older favorites.

Barbara Cumming. Three-inch flowers of clear yellow shading to bronze at center; very early.
Cavalier. Rich vermilion red.
Daybreak. Beautiful early shell-pink.
Dazzler. Cardinal red. An old reliable.
Fred Peele. Yellow button, tipped maroon. One of the best.
Golden Queen. Large yellow.
Granny Scoville. Large flowers of glowing coral bronze. Well behaved.
Jean Cumming. Large double white. Requires protection.
Mrs. H. Harrison. Small lavender pink flowers borne in clusters on plants of medium height.
Vaughan's Lavender. The origin of this flower is unknown. We found it in the garden of our neighbor, John Vaughan, and its performance has been so vastly superior to that of other lavender varieties that we now offer it with our heartiest recommendation.
I'ink Cushion (Amelia). Dwarf, compact plants literally covered with bright pink flowers.
Skibo. Small yellow buttons with reddish center
Vivid. Rosy crimson.
White Doty. Late. Ivory white.
Winnetka. Pure white. Free flowering.

Hardy Chrysanthemum Skibo-Actual Size

Aquilegia (Columbine)

## KOREAN HYBRID CHRYSANTHEMUMS

This new race of hardy Chrysanthemums is becoming more popular each year as flower lovers learn of their graceful charm. Coming in a wide range of colors, the flowers borne on long stems, the Korean Chrysanthemums are especially useful as cut flowers.

Apollo. Bronze, red and gold. Profuse bloomer.
Ceres. Old gold.
Daphne. Lovely pink with a sheen of lilac-rose.
Diana. Rose pink.
Mars. Velvety wine-red.
Any of the above Chrysanthemums, 25 cents eaeh; onc dozen plants, your selection, $\$ 2.50$.

COREOPSIS. Long-stemmed yellow flowers all summer. Profuse eut flowers. Packet, 10 cents; plants, 3 for 50 cents.

## DELPHINIUM

Delphiniums are easily the best blue perennials for cutting or for garden decoration. Some gardeners report unusual success when old plaster has been placed in the trench immediately beneath the plants. We find sheep manure and bone meal the best fertilizers. The foliage and crown should be sprayed thoroughly with a good fungicide several times during the season. A winter mulch of sifted coal ashes will prevent crown rot and injury from grubs.

Belladonna. Light blue. Packet, 15 cents; plants, 3 for 50 cents.
Mixed. All shades. Packet, 10 cents.
Bellamosum. Rich blue shade. Packet, 20 cents; plants, 3 for 50 cents.
Wrexham Strain. Hollyhock Delphiniums. English Hybrids. Packet. 30 cents.
English Hybrid Plants. 3 for $\$ 1.00$.
DIGITALIS (Foxglove). Giant Shirley Hybrids. A new strain of unsurpassed beauty. Packet, 1.5 cents; plants, 3 for in cents.

Gaillardia. Blanket Flower.
Grandifiora Hybrids. Flowers of yellow and scarlet on long stems. Packet, 10 cents; plants, 3 for 50 cents.
Sun God. Claimed by the originators to be a wonderful improvement in the well-known Ga!llardia. The two-foot stems are topped with magnificent chamois-yellow flowers which bloom continutously throughout the summer. Each 50 cents.
GEUM. A charming peremial of merit.
Mrs. Bradshaw. Doulle orange-scarlet flowers. Packet. 1.; cents; plants. 3 for 50 cents
(iYPSOPHILA paniculata. Hardy Baby's IBreath. Packet, 10 cents; plant.. 3 for 50 cents.
IBristol Fairy. Small dotble white blooms borne profusely during summer The sprays of this graceful peremial will be keenly appreciaterl by those who enjoy cut flowers. This clotrble Baby's Breath lends a touch of airy gracefulness to a bouquet whech no other flower can give.
Grafted plants, 40 cents each, 3 for $\$ 1.00$.

Hibiscus. Giant Mallow Marvels. Large flowers on plants 4 to 6 feet high. Packet, 10 cents; plants, 3 for 50 cents. White, pink, red.

## HOLLYHOCKS

These old-fashioned favorites maintain their popularity and deserve a place in every garden. The plants should be staked to prevent injury from storms. In winter they should have an application of coarse litter for winter protection.

Double Mixed. Packet, 10 cents.
Single Mixed. All colors. Packet, 10 cents; plants, 3 for 50 cents.
We can supply plants of double hollyhocks in separate colors: Red, Pink, or Yellow. Three for 75 cents.

IBERIS Sempervirens (Hardy Candytuft). Packet, 15 cents; plants, 20 cents each.

LATHYRUS. Perennial Pea. Quite hardy. Packet, 10 cents; plants, 20 cents each. We can supply plants in either pink or white.

LINUM SIBIRICUM (Perennial Flax). Light blue. Packet, 10 cents; plants, 3 for 50 cents.
LUNARIA Biennis. The silvery pods are used in winter bouquets. Packet, 10 cents.
LUPINES Mixed. All colors. Packet, 10 cents.
RUSSELL LUPINES. Now available to all gardeners, Russell Lupines are released after 20 years of hybridizing and selection to perfect a strain far superior to any that have preceded it. Packet ( 12 seeds), 25 cents.

Lychnis

LYCHNIS. A splendid border plant bearing intensely red flowers June-July. Chalcedonica. Packet, 10 cents; plants, 3 for 50 cents.

ORIENTAL POPPIES resent being disturbed during spring or summer. They should be watered during dry weather and mulched in December with two inches of coarse litter or shredded cow manure. These are great favorites because of their brilliant flowers in May and June. They enjoy rich soil and plenty of sun. Strong plants ready for delivery September 1st.
Oriental. Scarlet red. Packet, 10 cents.
Choice Mixed. Packet, 10 cents.

## ORIENTAL POPPY PLANTS

September 1st delivery.
Beauty of Levermere. Large dark crimson with black blotch. Each 35ic. Lula A. Neeley. Ox-blood red on strong stems. Each 45 cents.
May Sadler. Enormous pink flowers on medium tall stems. Each 35 cents.
Mrs. Perry. Salmon pink, good stems. Each 30 cents.
Perry's White. Satin white with dark blotch. Each 45 cents.
Olympia. Very early, medium-sized flowers of bright orange salmon. Semidouble. Each 35 cents.
Orientale. Orange-red type. Each 20 cents.
Wurtembergia. A magnificent dark red. Each 35 cents.
PHLOX. Nothing can take the place of Phlox in the perennial bordcr. As the plants are shallow rooted, we recommend a summer mulch of grass

Clippings or peat moss to prevent the top soil from drying out. Dust regularly with dusting Sulphur to control Red Spider, rust, and mildew.

Any varicty listed, 3 for 65 cents.
B. Comte. Brilliant, rich wine color.

Beacon. Brilliant cherry-rcd.
Count Zeppelin (Graf Zeppelin). Pure white flowers with vermilion-red cyc. Firebrand. Brilliant orange-scarlet.
Miss Lingard. Very early, white.
Rheinlander. Salmon-pink, claret-red eye.
Rijnstroom. Lively rose-pink.
R. P. Struthers. Bright rosy carmine.

Thor. Dcep salmon-pink, overlaid scarlet.
PIILOX Subulata (Dwarf).
IRosea. Plants, 20 cents each.
Alla. Plants, 25 cents each.
Vivid. Bright pink. We consider this the best dwarf Phlox. Small divisions, 40 cents each.

PHYSOSTEGIA virginiana gigantea. False Dragonhead. Packet, 10 cents; plants, 3 for 50 cents.
Vivid. A new dwarf variety about 20 inches high, blooming about three weeks later than Virginica. The large, deep pink flower lasts well when cut. Three for $\$ 1.00$.

Platycodon (Mariesii.) Chinese Bellflower. Blue saucer-like flowers on wiry stems. Packet, 15 cents; plants, 3 for 50 cents.

PYRETILRUM roseum. Painted Daisy. Daisy-like flowers in white, pink, and red. Mixed. Packet, 10 cents; plants, 3 for 50 cents.

SHASIA IMAISY. One of the most popular of hardy flowers. l'acket, 1j cents. I'lants, select strain, 25 cents each.

SHELI. FI,OWEIR (Chelone barbata). Packet, 10 cents; plants, 3 for ill conts
S'IATICE latifolia. Sea Lavender. Packet, 10 cents; plants, 20 eents each.
STOKESIA cyanea. Cornflower Aster. Jine for cutting. Packet, 10 conts.
SWEICN WIIIIAM
Perfection Single Mixed. Packet, 10 cents.
Double Mixed. Packet, 10 cents.
Sweet William Plants, 3 for 50 cents.
TIRITOMA. Red-hot I'oker. Blooms first year. Packet, $1 . \bar{j}$ cents; plants 20 cents each.

TUNICA saxifraga. A dwarf plant covered with delicate rose bloons. Packet. 10 cents; plants, 3 for 50 cents. Fine for rockery.

VERONICA longifolia subsessilis. 3 ft . Packet, 15 cents; plants, 20 cents each.

Rupestris. 4 inches. For rockery. Plants, 3 for 50 cents.
VIOLA. Tufted Pansy. Packet, 10 cents.
WALLFLOWER. Valued for their exquisite fragrance. Packet. 15 cents Siberian Wallflower (Cheiranthus Allioni). 18 inches. Bright orange blooms May to September. Plants, 3 for 50 cents.

## CARE OF ROSES

Planting. It should be borne in mind that roses will do much better in well-drained clay soil with plenty of sun. The plants should be set out as soon as received. The rose beds should be so planned that they will be at least three feet wide, but never more than six feet in width. Holes to receive plants should be dug at least fifteen inches dcep and equally as wide, so that the roots may be spread easily. Well-seasoned cow manure and a little bone meal may be incorporated with the soil. Fill in earth and pack firmly so as to leave no air pockcts. The juncture of the root stock and stems should be just beneath the surface. Newly-planted roses should be well watered. We recommend placing Hybrid Tea Rose bushes eighteen inches apart. A little crowding makes for longer and straighter stems.

Pruning. For best results the Hybrid Teas should be cut back to about six or eight inches, lcaving an outside bud at the top of the cane. Climbing roses bloom on cancs of the previous season's growth, hence the old wood should be cut out each year.

Fertilizing. A handful of bone meal and a fourinch pot full of sheep manure should be worked into the surface soil. This will insure luxuriant growth, good stems and flowers of splendid substance.

Winter Protection. In late fall or early winter, carth should be heapcd over the crowns to a depth of at least ten inches. If available, cow manure should be placed around the mounds. This hilling up process will protect the bushes against the rlrying action of winter winds, frost, and sun.

About the last week in March the winter covering should be removed, fertilizer applied and the bed raked off smooth.

Summer Care. A top dressing of peat moss not only gives the rose bed a neat appearance, but causes better growth by conserving inoisture and keeping down weeds. Grass clippings may be used instead of peat moss. If no mulch is uscd,

## Vegetable Planting Table

| Kind of Vegetable | Planting Time | Seeds or roots required for 100 -foot row | Depth of Planting | Ready to use after Planting |

keep the top soil pulverized with a sharp rakc. After every rain, the crust should be broken up as soon as the ground is mellow enough to work.

Spraying. If you would have perfect blossoms and glossy, healthy foliage, a definite spray program must be adopted and kept up throughout the season. There are many products on the
market designed for the protection of roses against the ravages of sucking and cating insects and fungus: diseases. Whether you use a dust or a liquid spray applications should be made at regular intervals remembering that black-spot and mildew are mo. $t$ apt to gain a foothold during damp and clouly weather. Many rose growers find in Triogen th simplest and noust efficient protection for ruses

We feel justly proud of the quality of rose plants which we have supplied our customers during the past years, and we are determined to continue our policy of offering only selected field grown plants from the best growers.

Our limited list of varieties includes dependable sorts familiar to most rose lovers, also some newer names which come highly recommended by trials in other parts of the country.

The following prices are for delivery up to April the fifteenth, as with the advance of the season we will only be able to supply potted plants at a slightly higher price.

Ami Quinard. H.T. This is the most popular dark red rose, the blackish buds opening into a semi-double fragrant flower of velvety crimson-maroon. $\$ 1.00$ each.

Autumn. H.T. Burnt-orange and red. Notable for its strikingly rich fall bloom. 75 cents each.

Betty Uprichard. H.T. Delicate salmon-pink flowers with a suggestion of carmine. Fragrant. Its popularity as a pink rose is well deserved. 75 cents each.

Caledonia. H.T. Full double flowers of pure white borne on strong canes. If you are looking for a good white rose, try Caledonia. 75 cents each.

Condesa de Sastago. H.T. Reddish copper inside with rich gold reverse. The striking flowers are borne on vigorous branching plants. An unusual rose which is sure to make many friends. 75 cents each.

Dame Edith Helen. H.T. Large double pink flowers of perfect form held on strong stems. A winner at many exhibitions. Sweet-scented. 75 cents ea.

Director Rubio. H.T. Large flowers of cochineal-pink. An outstanding variety. 75 cents each.

Duquesa de Penaranda. H.T. Described as cinnamon-peach or copperapricot. The fragrant flowers are held on strong upright growth, making it a splendid variety for cutting. 75 cents each.

Edith Nellie Perkins. H.T. A beautiful two-toned salmon-pink. The shapely long-pointed buds are produced in abundance. The mildiy fragrant flowers are excellent for cutting. 75 cents each.

Editor McFarland. H.T. Brilliant, clear pink flowers with strong stems. Last well when cut. 75 cents each.
E. G. Hill. H.T. Free-flowering, dazzling red, shading to dark crimson. 75 cents each.

Etoile de Hollande. H.T. We consider this the best red rose in the world. The flowers are fragrant, large and beautiful. The canes are strong and the foliage healthy. 75 cents each.

Federico Casas. H.T. Coppery pink and orange. Splendid as a garden subject as well as for cutting. 75 cents each.

Golden Dawn. H.T. Globular pale yellow. Tea-scented. Disease-resistant. 75 cents each.

Joyous Cavalier. H.T. A well-named scarlet-crimson. If roses have personality, Joyous Cavalier is a friendly fellow. 75 cents each.

Kaiserin Auguste Viktoria. H.T. A fragrant pure white. 75 cents each.

Margaret McGredy. H.T. Orange-scarlet buds opening to carmine-rose. The pleasing fragrance and continuous bloom make this a choice variety for garden display. 75 cents each.

Miss Rowena Thom. H.T. Enormous rose-pink blooms of delicious fragrance. A descendant of Radiance, it has robust, healthy foliage. 75 cents each.

Mme. Joseph Perraud. H.T. Long, s!ender buds of nasturtium orange opening to pink buff. Rare fragrance. An excellent flower for cutting or exhibition. 75 cents each.

Mrs. E. P. Thom. H.T. Medium-sized clear canary-yellow. Free blooming. 75 cents each.

Mrs. Pierre S. DuPont. H.T. Long, pointed buds of fadeless yellow, borne on healthy foliage. This is our favorite among the yellow roses. 75 cents each.

President Herbert Hoover. H.T. Flame, scarlet and yellow. As a garden rose it is far superior to Talisman. 75 cents each.

Radiance. H.T. Well-known globular flowers of rose pink. 50 cents each.
Red Radiance. H.T. Rose-red flower borne on strong stem. 50c ents each.
Senora Gari. H.T. Orange buds opening to large flowers of buff-apricot self. A new color in roses which will surely become popular. $\$ 1.00$ each.

Soeur Therese. H.T. Golden daffodil yellow flowers on sturdy long canes. 75 cents each.

Talisman. H.T. Scarlet-orange and rich yellow. 75 cents each.

## CLIMBING ROSES

Climbing American Beauty. The strong disease-resistant growth bears a wealth of flowers identical with its parent, the American Beauty. 7i) cents each.

WEIGELLA "EVA RATHKE"-The brilliant flowers are borne twicc dur-
ing each season. Finc for shruls border. Each 50 cents.

Clematis' Paniculata

## LILACS

Who can resist the fragrant charm of lilacs in bloom or fail to wax sentimental at the sight of their silvery lavender plumes? One can hardly think of spring without lilacs and their perfume. A garden can hardly be complete without lilacs.

Occasionally a lilac will not bloom until its seventh or eighth year, although most frequently they will bloom the first year they are planted.

Lilacs require some care, as they are subject to the ravages of scale and lilac borer. Thorough spraying in winter with miscible oil will control scale. Borers may be destroyed with carbon bisulphide squirted into the tunnels with a medicine dropper or hypodermic syringe, or the channels can be filled with treesaver, a plastic gum whose fumes will destroy the larvae.

## FRENCH LILACS

CHARLES JOLY. Double purple-red.
CHARLES X. Single red-purple.
MARIE LEMOINE. Double white.
MICHAEL BUCHNER. Double pale lilac.
PRES. GREVY. Double blue.
SOUV. DE LUDWIG SPAETH. Single purple.
Any of the above plants, 2 to 3 ft ., $\$ 1.25$ each; 5 plants, $\$ 5.00$.

## COMMON LILAC

Purple. 2 to 3 ft ., 60 cents each.
White. 2 to 3 ft ., 90 cents each.

## GLADIOLUS

The Gladiolus stands supreme as the best cut flower for garden cultivation. The blooms will last for days after cutting. Its cultivation is easy and so simple that any amateur with ordinary garden soil can enjoy these gorgeous flowers from early summer until frost. Bulbs may be planted, for succession of blooms, from the middle of March until the last of June. The bulbs should be covered at least three inches in ordinary soil, but much deeper in light, sandy soils. Keep free from weeds, and water in dry weather.

## CELERY

Fordhook. The largest, most solid, and finest-flavored Celery. Being of dwarf growth. The stalks are easily blanched. The color is white, the heart alone being tinged yellow. Packet, 25 cents; $1 / 2$ oz., 35 cents; oz., 60 c .

Golden Self-Blanching. Of dwarf growth, with thick, heavily-ribbed stalks When blanched, the stalks are a clear, waxen yellow, crisp and free from strings. Packet, 20 cents; $1 / 2$ oz., 55 cents; oz., 90 cents.

White Plume. A very early sort with white stalks, easi!y blanched, but not recommended for winter use. Packet, 10 cents; $1 / 2$ oz., 20 ccnts; oz., 30 cents.

## VEGETABLE PLANTS

We can supply in season plants of the following vegetables:

| CABBAGE | CHIVES | PEPPER |
| :--- | :--- | :--- |
| CAULIFLOWER | EGG PLANT | TOMATO |
| CELERY | ONION |  |

Cucumbers

## CUCUMBERS

Planting should be done when all danger of frost is past, as the young plants are very tender and susceptible to injury. The seed should be planted in ridges or hills four feet apart each way, having thoroughly incorporated in each hill a shovelful of well-rotted manure or other compost. When the plants are well started, thin out to two strong plants and keep ground thoroughly cultivated, being careful at all times not to bruise the vines.

## PEAS

The first peas which can be planted are the smooth-seeded varieties such as Alaska and Burpee's Best Extra Early. The earliest of the wrinkled peas is Gradus. Wrinkled peas cannot be sown safely until the ground is slightly warm. As soon as the first planting is up, another planting should be made for succession, using such varieties as:

## Blue Bantam

Little Marvel

## Premium Gem

For late peas, use the tall varieties such as Champion of England and Telephone. The last two varieties mentioned must be supplied with some form of support. The sugar content of garden peas turns to starch so rapidly after being gathered that few people know the rare flavor of this true garden delicacy.

White Strasburg. Distinctly a summer variety. The roots measure 4 to 5 inches in length, are thick at the shoulder and abruptly tapering. Skin and flesh pure white. Packet, 10 cents; oz., 15 cents; $1 / 4 \mathrm{lb} ., 30$ cents.

## WINTER RADISHES

These may be planted in late summer, requiring seven to eight weeks for maturity. Thin out to stand 6 inches apart. Easily stored for winter use.

Long Black Spanish. Packet, 10 cents; oz., 15 cents.
White Chinese. Packet, 10 cents; oz., 15 cents.

Peas

Radishes

## RHUBARB ROOTS

Myatt's Victoria. Roots planted in the spring in good, rich soil will make vigorous growth. Stalks should not be cut till the following year. Roots, 15 cents each; 5 for 50 cents; 12 for $\$ 1.00$.

## SALSIFY OR OYSTER PLANT

Mammoth Sandwich Island. Large roots of excellent flavor. Superior to other varieties for winter use. Packet, 10 cents; oz, 20 cents; $1 / 4 \mathrm{lb}$., 65 cents.

## SPINACH

Victoria. Leaves large, thick, crumpled, and of fine quality. A good yielder. Packet, 10 cents; oz., 15 cents; $1 / 4 \mathrm{lb}$., 20 cents; $1 / 2 \mathrm{lb}$., 25 cents; $1 \mathrm{~b} ., 45$ cents.

New Zealand. This is not a true Spinach, but a plant bearing an abundant crop of thick leaves, which, according to many epicures, is superior to the ordinary Spinach. This is a true "cut and come again" sort. Will bear till frost. Packet, 10 cents; oz., 15 cents; $1 / 4 \mathrm{lb} ., 25$ cents.

Bloomsdale Savoy. Best adapted for fall planting. Leaves are wrinkled and curled. Packet, 5 cents; oz., 10 cents; $1 / 4 \mathrm{lb}$., 20 cents; $1 / 2 \mathrm{lb}$., 25 cents; lb., 40 cents.

## SQUASH

Early White Bush. This is the old-fashioned "Cymling." A very early summer variety, flattened and scalloped, with creamy white skin. Packet, 10 cents; oz., 15 cents; $1 / 4 \mathrm{lb}$., 35 cents.

Early Golden Summer Crookneck. Of truc bush growth, with fruits about a foot long, warted and of rich orange color. Packet, 10 cents; oz., 15 cents; $1 / 4 \mathrm{lb} ., 40$ cents.

## TURNIPS

Purple-top Globe. Also known as the Red-top White Globe. Flesh is firm, crisp, and mild. Roots measure 6 inches in diameter. Oz., 15 cents; $1 / 4$ lb., 25 cents; $1 / 2 \mathrm{lb}$., 40 cents; 1 b ., 65 cents.

Purple-top Strap-leaf. Roots flat, 4 to 6 inches in diameter. Packet, 10 cents; oz., 15 cents; $1 / 4 \mathrm{lb} ., 25$ cents; $1 / 2 \mathrm{lb}$., 40 cents; 1 b ., 65 conts.
Seven-top. This variety is grown for the large, tender leaves which arc cooked for grecns. Oz., 15 cents; $1 / 4 \mathrm{lb} ., 25$ cents; $1 / 2 \mathrm{lb} ., 3.5$ cents.

## TOMATOES

Beefsteak. The large fruits are very much like Ponderosa cxcept that they arc scarlct-red. Packet, 1.5 cents; $1 / 2$ oz., 30 cents; oz., 55 cents.

Bonny Best. Bcars uniform, solid fruits somewhat smaller than Chalk's Jewcl, and about a week earlier. Packct, 10 cents; $1 / 2$ oz., 20 ccnts; oz., 30 cents.
Dwarf Giant. The largest-fruited of all dwarf Tomatoes. Solid meat of sweet flavor, showing no trace of core. Excellent for home use. Packet, 15 cents; $1 / 2$ oz, 35 cents; oz., 60 cents.
John Baer. An early, red Tomato of the Chalk's Jewel type. Very productive. Packet, 10 cents; $1 / 2$ oz., 20 cents; oz., 35 .ccnts.

Bonny Best Tomatoes

Marglobe. Wilt-resistant. Globe-shaped fruits of pure scarlet color, maturing early. Highly resistant to fusarium wilt. Packet, 10 cents; I/2 oz., 20 cents; oz., 35 cents.
Matchless. A rich cardinal-red Tomato of large size with an unusual amount of firm, solid meat. Sub-acid, main-crop variety. Packet, 10 cents; $1 / 2$ oz., 25 cents; oz., 40 cents; 1/4 1b., $\$ 1.20$.
Oxheart. A new purplish-scarlet Tomato of enormous size. The flesh is solid with sub-acid flavor. The fruits have a distinct oxheart shape. Packet, 10 cents; $1 / 2 \mathrm{oz} ., 45$ cents; oz., 85 cents.
Ponderosa. One of the best for home use. The fruits are unusually large and of crimson color. Flesh solid and almost free from seeds. Packet, 15 cents; 1/2 oz., 35 cents; oz., 60 cents.

Stone. Large, smooth, solid fruits of deep scarlet. A main-crop variety. Packet, 10 cents; I/2 oz., 20 cents; oz., 30 cents.
Sunnybrook Earliana. Earliest of all red Tomatoes. Smooth, scarlet fruits. Excellent for early market. Packet, 10 cents; $1 / 2$ oz., 25 cents; oz., 40 cents.
Winsall. Remarkably large and solid fruits are pinkish, maturing about 5 days later than Ponderosa. Delicious flavor. Packet, 25 cents; $1 / 2$ oz., $\$ 2.00$; oz., $\$ 3.50$.

## YELLOW-FRUITED TOMATOES

Golden Ponderosa. A large, meaty Tomato of good quality. Yellow flcsh. Productive. Packet, 15 cents; $1 / 2$ oz., 35 cents; oz., 60 cents.

Yellow Pear Preserving. This is a small-fruited sort. Very productivc. Packet, 10 cents; I/2 oz., 30 cents; oz., 50 cents.

## WHEN FLOWERS BLOOM

Flower lovers find it most interesting to keep a garden diary. Notes taken in one season are quite helpful in making forecasts for the following year. The following observations are taken from the notebook of a Louisville gardencr:
MARCH. Arabis, Myrtle, Crocus, Forsythia.
APRIL. Double English Daisy, Tulip, Narcissus, Viola, Spirea V. H., Leucojum. MAY. Bleeding Heart, Iris, Columbine, Oriental Poppy, Deutzia Gracilis, Peony, Ranunculus, Gold Dust, Creeping Phlox, Hardy Candytuft, Pyrethrum, Honesty, Saponaria, Creeping Baby Breath, Sweet William, Lycnnis, Blue Flax, Tradescantia, Veronica, Climbing American Beauty.
JUNE. Cerastium, Clematis Jackmani, Edelweis, Ismene, Coreopsis, Chelone, Geum, Tunica, Phlox, Miss Lingard, Hollyhocks, Pansy, Madonna Lily, Regal Lily, Platycodon, Shasta Daisy, Sweet Peas, Delphiníun, Valcrian, Astilbe, Gaillardia, Feverfew, Hardy Pea, Gladiolus.
JULY. Artemesia, Forget-Me-Not, Statice, Stokesia, Carnation, Anthonis, Chinesc Forget-Me-Not, Purple Coneflower, Day Lily, Gypsophila Bristol Fairy, Monarda, Phlox, Campanula Carpatica.
AUGUST. Dahlia, Physostegia.
SEPTEMBER. Clematis, Hardy Aster, Hardy Chrysanthernum,

## MOLES

## Insect Destroyers and Fungicides

Antrol. Scts containing 4 jars and $4-\mathrm{oz}$. bottle of syrup, price, 7 .jc; extra jars, each, 10 c . 4 -oz. bottle syrup, 35 c . Pint bottle of syrup, 85 c ; gal., \$3.50.

Antrol Ready-filled Sets. Consisting of four patented glass "feeders" filled with regular Antrol syrup, price per set, 40 c .

Arsenate of Lead (Dry). Efficient against leafeating insects. May be applied as a dust or in liquid form. Use 2 to 3 pounds to 50 gallons of water on potatoes. For all other purposes, use 1 to $11 / 2$ pounds to 50 gallons of water, or one teaspoonful to 1 gallon. When using on trees and plants of tender foliage, add 2 pounds of lime to each 50 gallons of water. $1 / 2 \mathrm{lb}$., 20c; 1b., $35 \mathrm{c} ; 4$ 1bs., 95 c .

Atlacide (Weed Killer). Sprinkle Atlacide on driveways, gutters, tennis courts, etc. 1 lb . treats 100 sq. ft. Non-poisonous. 1-1b. can. $50 \mathrm{c} ; 3^{1 / 2}-\mathrm{lb}$. can, $\$ 1.50$.

Black-Leaf-40. A highly concentrated solution of Nicotine Sulphate. 1-oz. bottle, 35 c ; 5 ozs., $\$ 1.00 ; 1 \mathrm{lb} ., \$ 2.25 ; 2 \mathrm{lbs} ., \$ 3.25$.

Bordeaux Mixture (Dry). Used against blight, mildew, black-rot, leaf-spot, and other fungous diseases. Do not use on peach or Japanese plum. Lb., 30c; 4 lbs., 8 5̈c.

Carbon Disulphide. A highly volatile oil used in combating moths and weevil in grain, also ants and moles. When vaporized, the fumes, being heavier than air, go down. Keep away from flame. Directions on each package. 1-1b. can, 50 c . Cannot be mailed.

Treated
Gardeners: Hormodin brings new satisfaction to gardeners in the knowledge that they may now reproduce and develop their own plants with ease and assurance of success. Even varicties of plants that were difficult to root, and formerly attempted on!y by professional growers, are now readily propagated with Hormodin.

Rose Growers: Many roses, before the development of Hormodin, were difficult to root. Fortunately, this species is one of the most responsive to Hormodin, producing large roots in a short period of time.
